

ECHOES FROM SHELL POND.

Messrs. Stockton and Brown Were the Orators and Paid Their Respects to the Corporations.

Messrs. Stockton and Brown were the only candidatorial orators at Shell Pond and pounded the corporations and the subsidized newspapers to beat the band.

Says the Metropolis:

Mr. Brown said that he endorsed every word, line, paragraph and chapter of what Stockton had said. He believed in railroads and railroad commissions. He agreed fully with Mr. Bittinger about the influence of the newspapers, and wanted people to understand that the Times-Union was not one of the papers whose influence he would have them follow, but would advise them to do the contrary of everything the Times-Union said do—if it said go to the right, you should go to the left; if to the left, go to the right; if go ahead, go backwards, and keep your eye right on them all the time you were backing. He spoke of thirteen subsidized newspapers in this state, whose political opinions came from the pocketbooks of corporations. Mr. Brown then reviewed the planks in his platform, and the one referring to pensions caught the attention of many, who loudly applauded the sentiments he so fervently and eloquently spoke touching this plank of his platform.

Says the Gainesville Sun:

Justice A. D. Chamblin, of Archer, one of the most efficient justices of the peace in Florida, was in the city yesterday and paid The Sun an agreeable call.

Mr. Chamblin stated that, with a great many others from Archer and vicinity, he attended the big political gathering and barbecue at Shell Pond Wednesday. He stated that Hons. J. N. C. Stockton, candidate for congress, and C. M. Brown, who wants to be governor, were the two principal speakers. As usual, Mr. Stockton went for corporations and trusts without gloves, and the Times-Union came in for its share of abuse and censure, to which Hon. Chas. Monroe Brown said "no too."

There were a great many at the picnic from all sections of Levy, Alachua, LaFayette and Marion counties, and inasmuch as there was plenty to eat and everybody was in a good humor, the occasion passed off most successfully.

To My Friends and Patrons.

Having been appointed to take the management of the Cable Company branch at Tampa I take this method of announcing the fact to my friends of Marion and adjacent counties, and while I shall be a little farther away from the center of the state than heretofore, should any of you wish to do business with me in person, a letter addressed to me at Tampa will receive prompt attention.

During the several years I have been in Florida I have done an immense amount of business and all satisfactory, as the scores of friends I have gained will testify. It is my intention to do business in the future in the same honest and sincere manner in which I have conducted it in the past.

Our company, like all others, has high and low grade pianos either of which you may have according to the money you wish to expend. With my word and good faith I have told you exactly what the piano is. Every one who expects to purchase will find as those having bought have found, that I do not promise them impossibilities, and that after promising, I fulfill those promises.

To each and everyone I extend my thanks for past favors and in my new position ask for your future patronage.

J. A. JORDAN.

A Boy's Wild Ride for Life.

With family around expecting him to die, and a son riding for life, 18 miles to get Dr. King's New Discovery for consumption, coughs and colds, W. H. Brown, of Leesville, Ind., endured agonies from asthma; but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, bronchitis, coughs, colds and grip prove its matchless merit for all throat and lung troubles. Guaranteed bottles 50c. and \$1.00. Trial bottles free at Anti-Monopoly Drug Store and Tydings & Co.

A detachment of the Salvation Army is now in the mountain districts of Kentucky trying to harmonize the feudists. The Kentucky feudist is about the toughest proposition that civilization has gone up against, and if the Salvation Army succeeds in inducing them to lay aside their shoaling irons all Kentucky will breathe easier.—Madison New-Era.

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Right

FAIR FLORIDA

Fairist, brightest, southern land,
Sunshine, song on every hand,
Where reigns beauty's magic wand
In the winter.

Where the leaflets never freeze,
And the cold and chilling breeze
Never whistles through the trees
In the winter.

Where the little murmuring rill,
Without icy cold or chill,
Sweetly softly babbles still
In the winter.

Where the marsh-frog's piping song,
Echoing forth in accents strong,
Greets the list'n'r all night long
In the winter.

Where, with beauty all aglow,
Sweetest, fairest flowers grow,
Fearing neither frost nor snow
In the winter.

Where, from every nook and bower,
Hums the bee from flower to flower,
Gathering nectar by the hour
In the winter.

Where the sweetest songs are heard—
Song of thrush and mocking-bird,
And the sylvan depths are stirred
In the winter.

Land of wonder and delight!
Fields and waters warm and bright!
Bonny, sunny, summer sight
In the winter.

Herald of eternal spring,
Yearnings at thy feet I bring;
Lays to thee I'll ever sing,
In summer and in winter.

—From the Sunny South. Dedicated to B. W. Wrenn, of the Plant System, by Jonathan Hoag, Jr.

Good Work of the Hospital Corps.

Under the new military regulations, and affecting the recent encampment in Jacksonville, special recognition is due and has been given the very efficient work of the Brigade Hospital Corps.

Ocala was rather prominent in this organization. The corps consisted of J. B. Carlisle, sergeant and hospital steward; W. H. Bangs, Jas. Farris, J. B. Carlisle, Jr.; Maxdy D. Moody and Victor Martinot, all of Ocala.

These men had only the assistance of two additional men detailed from the Jacksonville companies and had upon their shoulders all the active hospital work of the entire encampment of approximately 1400 men.

The services rendered reflected great credit upon this branch of the new organization of our state troops.

The members of the corps most highly commend the work of their chief, Major J. E. Boyd, Brigade Surgeon.

Unfortunately the fine new hospital equipment did not arrive from Washington at the time expected and the hospital corps were thrown largely on their own resources.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists and medicine dealers.

The Satsuma.

Glen St. Mary is near the Georgia line yet Mr. Geo. L. Tabor is making a success of growing the Satsuma orange.

Here is what he says:

"Some people call us cranky on the subject of the Satsuma orange. Perhaps we are. Anyway, we have twenty five acres of fruiting trees of this variety, and are making good money out of them. We believe that the fruit grower who makes a commercial success is apt to be cranky; that is, to the extent, at least, of being a specialist in some particular line. The warm, wet fall last year kept the bulk of the fruit from ripening as early as in previous years, but we obtained fancy prices on all earlier shipments, some of the fruit bringing as high as \$7 per strap."

Fearful Odds Against Him.

Bedridden, alone and destitute. Such, in brief was the condition of an old soldier by the name of S. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors or medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies, "I am on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50c. Guaranteed by Anti-Monopoly Drug Store and Tydings & Co.

Frank Clark on the Trust Question.

The editor of the The Floridian has often said that the trust question is as much a local issue as the tariff, and although we know we were right our friends the enemies too have invariably held up their hands in token of holy horror.

That we have always been right on this issue is clearly demonstrated by the platform of the Hon. Frank Clark who is a candidate for congress from the second district.

We have read Milton's "Paradise Lost," Tasso's "Jerusalem Delivered," Dante's "Inferno" and all these truly epic poems, but never yet have we studied the songs of any of these masters as those immortal words of the Hon. Frank Clark on The Trust Question.

Talk about your "Mulum in Parvo," but here it is:

"If you will impose this trust in me I will appreciate it."

While 'tis true these twelve sublime utterances make the trust question more of a personal than a local issue, the fact that the editor of The Floridian is more of a statesman than a politician now remains as glaring as a noonday sun.

"Impose it in me!"

Thus speaketh the Hon. Frank Clark. Thus thinketh the forty five states of this great Union and the sixty millions of people thereof.

It may take it further than we have ever done from a national issue, but it nails it more firmly to the principles of truth.

The suggestion that Mr. Clark had no reference to the trust question is as futile as it is foolish. Some say he was only talking of the "honor." The edict has already gone forth from party leaders that the trust question must be the paramount issue, and we but "render unto Caesar the things that are Caesar's" when we say that Frank Clark, fresh from Oklahoma's invigorating climate, is speaking only as The Floridian can comprehend.

"Impose it in me" has been the prayer of the Standard Oil Trust, the Steel Trust, the Sugar Trust, and even the Naval Stores Trust, but never yet have we been so deeply moved as by the eloquent supplication of the Hon. Frank Clark.—"If you will impose this trust in me I will appreciate it."—Jacksonville Floridian.

Owes his Life to Neighbor's Kindness.

M. D. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition brought him a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by all druggists and medicine dealers.

University of Florida

Whatever general effect the closing of the saloons in Columbia county may have on certain lines of trade, there is but little doubt that it will favorably affect the attendance at the University of Florida, which is about to enter on its 20th scholastic year as an institution of learning.

Many a parent will feel more secure in sending their boys to a school far removed from the influences which surround the saloon.

Aside from this the University starts out with a complete equipment, additional buildings and a faculty unsurpassed in the south. It is an institution of which the state may well be proud, and one to which the citizens of the state will do well to send their sons.—St. Augustine Record.

Croup.

Usually begins with a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. 50c. at Anti-Monopoly drug store.

The Times-Union contest for World's Fair commissioners continues to arouse great interest throughout the state. From the way the fair candidates poll the votes, one would infer that they could give the sterner sex a few pointers.—Palatka Herald.

Wisdom of God Seen Everywhere

Seen in the vast heavens wide;
Seen in the ocean's rolling tide;
Seen in the variegated earth;
Seen in its universal depths of worth;
Seen in its valleys, plains and hills;
Seen in its rivers, springs and rills;
Seen in its stately forest trees;
Seen in its grasses, flowers and leaves;
Seen in its rocks and sandy loam;
Seen in its various beasts that roam;
Seen in its birds that flit and sing;
Seen in its every moving thing;
Seen in the drifting clouds that form;
Seen in the driving of the storm;
Seen in the shining sun of noon;
Seen in the silvery stars and moon;
Seen in the changes that appear;
Seen in the seasons of the year;
Seen in the life of great and small;
Seen in the usefulness of all;
Seen in the higher creature, man;
Seen in Jehovah's saving plan;
Seen in the church of Christ our Lord;
Seen in His everlasting word;
Seen in the work that grace effects;
Seen in the good that faith expects;
Seen in the darkness and the light;
Seen in God's order—ever right;
Seen where eyes enlightened view;
Seen in the old and in the new;
Seen in the harmony of plan;
Seen perfect in the Son of man.

Martin Correspondence.

The opening of Fessenden Academy will occur Sept. 21. Principal J. L. Wiley has returned from his vacation spent in New York state. While in New York he had conferences with two of the school's friends, Dr. Buttrick, the head of the Slater board and Dr. Beard of the American Association. These, together with Supt. Carn and the county board of public instruction are in a position to do a splendid work for the colored youth of this section.

Miss Fannie Banks, a graduate of Fisk University, Nashville, Tenn., and Miss Emily Prophet a recent student of the Seminary, at Northfield, Mass., are the recent additions to the faculty. Mrs. Wiley is to have charge of the primary department.

The industrial department will be operated later or as soon as the different cooperating boards agree on a plan.

N. Y. Z.

A New Jersey Editor's Testimonial.

M. T. Lynch, editor of the Philadelphia, F. J. Daily Post writes, "I have used many kinds of medicines for coughs and colds in my family but have never found anything so good as Foley's Honey and Tar. I cannot say too much in praise." Postoffice Drug Store.

Where is Godwin?

Since that Brake-Callison convict scrape of Alachua county has got into the newspapers it is about to develop into a very ugly mess. If half that has been told about this diabolical butchery is true every one connected with it should wear stripes the balance of their days. Where is Editor Godwin, the great moralist and reformer of the Gainesville Star, that he lets such crimes exist in his county without his condemnation? Is it because old man Brake is interested in a liquor business in Milledgeville, Ga.—Madison New-Era.

A Gopher as a Trophy.

Mr. E. J. Hester, of Lawrenceburg, N. C., who has been visiting his brother, Mr. F. C. Hester, of this city, for some weeks, returned to his home in North Carolina Saturday and carried back with him a full grown gopher as one of the curious productions of Florida. Mr. Hester captured it in the road Thursday between Ocala and Silver Springs.

He says the gopher will create more curiosity at his home than would an alligator or almost any other animal.

Mr. John Fabyan, of Conant, says that the Ocala Banner is the best weekly newspaper he has ever read. This is encouraging and we hope before the end of the year that every reader of this paper will be able to make the same statement.

We have in our shelves many remedies for constipation and biliousness, but the never-failing common-sense cure is found only in Raymon's Liver Pill and Tonic Pellets. This treatment cures by relieving the cause of the trouble; the Pink Pills arouse the liver, while the Tonic Pellets tone up the organs and insure natural and healthy conditions. Complete treatment—two medicines—25 doses—full directions—only 25 cents. Postoffice Drug store.

Malaria

Is a veritable dragon of ill-health. It leaves its path more physical woe than probably any other one disease peculiar to Americans.

WHY? Simply because upon the first indication of the malarial system is usually scourged with quinine, or that deadly mineral—calomel.

Don't Do It. It's Dangerous. It isn't at all necessary either. We positively guarantee

HERBINE

to prevent and permanently cure any form of malaria. It is purely herbal. Has all the virtues of quinine and calomel—none of their deadly effects. It corrects all liver, kidney and stomach troubles. 50c per bottle. All Druggists.

Garden Party at Oak Lawn.

Last Tuesday Sept. 15, the beautiful grounds and hospitable mansion of Mrs. Col. Stewart were the scene of a pleasant garden party and social gathering.

The fire stands on the lawns and the brilliant illuminations of the house gave an abundance of light.

Mrs. Stewart had provided a band which rendered sweet music. Mr. Floyd exhibited his phonograph and Rev. Henry W. Little, of Ocala, the eloquent rector of Grace Episcopal church, gave a talk on "Travels in the Far East." All of these features were very much enjoyed.

The entire scene was a very pretty one and the proceeds of the ice cream sale were handed over to the wardens of Trinity Episcopal church, Orange Lake.

Florida a Rich Man's Paradise.

Many rich men invest in Florida to make money, and make it; others invest there to spend it in palatial homes and magnificent parks around them. On these homes and grounds opportunity is sought to spend every dollar that will in any wise add to their beauty and comfort. Thus it is that one at least of Florida's great resorts has become a rich man's paradise.—So says Mr. Arthur S. Morton in a northern publication.

FOLEY'S HONEY AND TAR
stops the cough and heals lungs

Out.

The following clause in the state constitution shuts Messrs. Kirk, Abrams and Dorman out, viz:

"No senator or member of the house of representatives shall, during the time for which he was elected, be appointed or elected to any civil office under the constitution of this state that has been created or the emoluments whereof shall have been increased during that time."

The governor's salary not having been raised Mr. Brown escapes.

We enjoyed a very pleasant visit from Prof. J. H. Brinson Saturday afternoon. He has just closed his third successful summer normal at Orange Springs. Prof. Brinson has charge of the commercial department in the East Florida Seminary, at Gainesville, and will begin his duties there next Friday. He is a candidate for superintendent of public instruction for this county, and says his prospects are most flattering. He is a native of the county and his entire life has been spent in school work.

A letter from Mrs. W. F. Haisley states that they had a most delightful voyage to New York and are now very pleasantly located at Saratoga Springs. Mrs. Haisley says that already Mr. Haisley's health is visibly improving.
